

Overview Tests & Questionnaires Maastricht Aging Study (MAAS)

V. 11-4-2019

	F0		F1		F2		F3		F4		F5	
	A1	A2	A3	A4	A1	A2	A3	A4	A1	A2	A3	A4
Tests	WLT - 15-Word Learning Test											
Cognitive	SCWT - Stroop Colour-Word Test											
	CST - Concept Shifting Test											
	LDST - Letter Digit Substitution Test											
	Fluency words - animals/professions/letters (part GIT)											
	MCRT - Motor Choice Reaction Time											
	MMSE - Mini-Mental State Examination											
	CT - Continuous tapping											
	EHI - Edinburg Handedness Inventory											
	SDT - Signal Detection Test											
	TOL - Tower of London											
	BVRT - Benton Visual Retention Test											
	RSPM - Raven Standard Progressive Matrices											
	BD - Bicycle drawing											
	EM - Episodic Memory (test order)											
	PM - Prospective Memory ('signature')											
	DART - Dutch Adult Reading Test (NLV)											
	DART - abbreviated											
	WST - Word Span Test											
	P&P-MST - Memory Scanning Task (GVT)											
	GIT1 - Doing Sums (Ciferen)											
	GIT2 - Vocabulary (Woordenlijst)											
	GIT3 - Mental Rotation (Legkaart)											
	GIT4 - Analogies (Woodmatrizen)											
	SPASAT - Self Paced Auditory Serial Addition Task											
	DZ - Aufmerksamkeits Belastungstest											
	CCF - Cattell Culture Fair Intelligence test											
	RM - Recognition Memory											
	WFRT - Warrington Facial Recognition Test											
	LM - Logical Memory + Delayed recall											
	VLTint - VLT interference											
	VLT ISI 1000											
	VLT ISI 2000											
	VLT ISI 3000											
	LBT - Line Bisection Test (Schenkenberg)											
	P&P MST - Memory Scanning Test: Shadows & Cubes											
	BVRT-R - Benton Visual Retention Test-Revised											
	DART-C - contextual: words (NLV-C)											
	DART-C - contextual: sentences (NLV-C)											
	L&S - Light & Sound (Hypersensitivity to)											
	RAK-HF - RAKT Hidden Figures											
	DF - Design Fluency											
	BNF - Boston Naming Test											
	DA - Discursive Arithmetic											
	FCSRT - 4 Choice Spatial Reaction Time											
	LDT - Lexical Decision Task											
	GAMST - Groningen Arithmetic Memory Scanning Task											
	GCT - Groningen Category Task											
Tests	BPM - Blood Pressure Measurement											
Medical	AUD - Audiometry 500-1000-2000-4000 Hz											
	VDS - Visual Acuity: distant											
	VOD/VOS Vis Acuity: distant, L/R											
	Colour Vision (Ishihara Charts)											
	Visual acuity: close (Amsterdam Reading Chart)											
	Contrast Sensitivity (LH/Low Contrast Symbol Test)											
	Central vision (Amstler Chart)											
	Anthropometry length/weight											
	Anthropometry waist/hip circumferences											
	Anthropometry head circumference											
	Blood sampling											
	Primitive reflexes battery											
Tests	Effort Scale session											
Scales	AD-ACL - Act/Deact Adjective Checklist											
	CES-D - Center of Epid Studies depression Scale											
	GKS - Gezins Klimaatschaal (HAG)											
Questionnaire Scales	RAND-36 / SF-36 Quality-of-life scales											
	LQ - Loneliness Questionnaires											
	SCL - Symptom Check List 29 items ANX/DEP/SLEEP											
	SC - Psychoticism											
	SWLS - Satisfaction With Life Scale											
	MIA - Metamemory in Adulthood 90 items											
	MIA - Metamemory in Adulthood 41 items											
	VOEG-21 Vragenlijst Overtrent Ervaren Gezondheid											
	CFQ - Cognitive Failure List 25 items											
	- Change in CFQ complaints 4 items											
	DECO - Deterioration Cognitif Observée (proxy quest)											
	NWQ - Neurovegetative Questionnaire											
	PANAS - Positive and Negative Affect Scale											
	MQ - Maastricht Questionnaire (Appels et al)											
	COOP/WONCA Functional Assessment Charts											
	GIEB - Gelouf in Externe Beheersing 11 items (Bosma)											
	EPO - Eysenck Personality Questionnaire											
	GSKL - Groningen Slaap Kwaliteit List (MHvdM)											
	SST (Subjectieve Schattingen Taak)											
Questionnaire other clusters	Demographical / marital Status											
	Education											
	Education Partner											
	Profession/Education/LOA											
	Profession father											
	Profession: qualitative aspects 16 items (Bosma)											
	Net income 3 items (Bosma)											
	Type of work											
	IADL - Instr Act Daily Living 5 items											
	Sensory function 3 items											
	Stamina physical/mental 3 items											
	Dementia family											
	Health general 1-5											
	Health compared to peers											
	Health compared to 10-15y ago											
	Activities h/week 6 items											
	Activities h/week 12 items											
	BLE questions general											
	Surgery under general anesthesia											
	Brain traumas											
	Medical complaint list											
	Medication use: actual											
	Medication use: past											
	Soft/hard drug use											
	Smoking past/present											
	Alcohol use											
	Coffee/Tea use (limited)											
	Cola/Chocolate use (limited)											
	Coffee/Tea/Cola/Energy drink use (extended)											
	Exposure to neurotoxic substances											
	Life events											
	Memory habits 18 items											
	Cognitive complaints 27 items											
	Cognitive complaints worries/hindrances 4 items											
	Causes forgetfulness											
	Complaints: need for treatment											
	Medication against forgetfulness											
	Activities general 9 items											
	HLC - Health Locus of Control 9 items											
	Social network 2 items											
	Daily meals 5 items											
	Weight increase/decrease (kg)											
	Social contacts 6 items (Med. Soc.)											
	Importance of self care 5 items (Med. Soc.)											
	Sleep h/week											
	Computer & Internet usage 8 items											
	Sleep questions Vermeeren 7 items											
	Sleep questions Magnee 5 items											
	ADHD symptom checklist (Hurks/Marchetta) 50 items											
	Need for treatment (Med) 12 items											
	Lifetime noise exposure (Miedema/van Boxtel)											
	Hostility/Social inadequacy (Bosma)											
	Diet (fat content/chewing gum) (de Groot)											
	Cell phone usage											
	Quality-of-Life - Euroqol											
	SAIL (Spiritual Attitudes and Interest Scale)											
	MEDAS (Mediterranean Diet Adherence Screener)											
	Dementia Awareness Questionnaire (PAH)											
SGPI - Semi-structured psychological interview	Medical consumption in past 3 years											
	Education mother/father 4 items											
	Morbidity Checklist 36 items											
	Morbidity Checklist 40 items											
	Severe injury - what											
	Medication for cognitive complaints 4 items											
	Menopause - when											
	--changed to: Menopause 3 items + therapy											
	Participation in memory course 2 items											
	Memory/Concentration etc change over 3 years											
	Observations during contact 24 items											
	Ocular dysfunction/diseases/interventions											
	Hearing disorders/interventions											
	MINI (Anxiety / Depression)
